Waled Saied Khames

Data Team Lead | Head of AI & Data Tracks | Data Scientist

(+20) 111 350 6145 | waledelsamra@gmail.com | Cairo, Egypt | Military Service: Completed

LinkedIn | GitHub | Kaggle | Portfolio

SUMMARY

Data Team Lead and Head of AI & Data Tracks with over 4 years of experience in data science, machine learning, and analytics. Leads the Data Analysis, Data Engineering, AI, and Maintenance teams at Megamind IT Solutions, delivering predictive models and analytics for healthcare, and heads the AI, AI Automation, Advanced AI, Data Analysis, and Data Engineering tracks at Instant Software Solutions, managing 88 instructors and 55 mentors. Designs industry-aligned diplomas spanning classical ML, Generative AI, RAG, and agentic AI, and combines hands-on technical delivery with team leadership, curriculum design, and mentoring.

EDUCATION

B.Sc. in Computer Science

Sep 2019 – Jul 2023

Faculty of Computers and Information, Kafr Elsheikh University

Graduation Project (GOBA): Excellent grade (A+)

WORK EXPERIENCE

Head of Tracks

Dec 2025 – Present

Instant Software Solutions | Egypt | Part-time

- **Tracks Leadership:** Lead the AI, AI Automation, Advanced AI, Data Analysis, and Data Engineering tracks, owning curriculum quality, delivery standards, and learner outcomes.
- **Team Management:** Manage a team of 88 instructors and 55 mentors: assigning tracks and groups, setting teaching standards, reviewing session quality, and supporting instructor development.
- **Curriculum Design:** Designed full diploma curricula, including a 200-hour AI & Data Science Diploma, a 150-hour Advanced AI Engineering Diploma, and a 75-hour AI Automation & Agentic AI Diploma, from session agendas to projects, tasks, and quizzes.
- **Hackathons & Workshops:** Organized and ran an AI Clinical Decision Support hackathon and delivered specialized workshops, including Advanced RAG and career-readiness / interview-preparation sessions for diploma graduates.
- **Business Development:** Contributed to Instant's technical proposals and tenders, including the bid for ODC Egypt's “1000 Employment Program”, shaping training scope, track structure, and delivery plans.
- **Hands-on Teaching:** Teach Python, SQL, machine learning, and Generative AI, and guide learners through the full ML pipeline from problem formulation to model deployment and evaluation.

Data Team Lead

Aug 2024 – Present

Megamind IT Solutions | Egypt | Full-time

- **Team Leadership:** Lead the Data Analysis, Data Engineering, AI, and Maintenance teams: planning and prioritizing work across teams, reviewing code, pipelines, and models, ensuring system reliability, and mentoring team members on best practices.
- **Predictive Model Development & Clinical Impact:** Built machine learning and statistical models on multi-source healthcare data (EHR, claims, wearables), contributing to a 22% improvement in diagnostic accuracy and a 15% reduction in readmission rates across 3 hospital networks.
- **Population Health Analytics:** Developed epidemiological monitoring and drug-adherence prediction models for 250,000+ covered lives, enabling proactive interventions that improved medication compliance by 18%.
- **Data-Driven Interventions:** Worked with clinical and operational leaders to identify and visualize high-risk patient populations, supporting targeted interventions that lowered 30-day readmission rates.
- **KPI Dashboards & Reporting:** Built KPI dashboards and reporting frameworks that gave leadership actionable insights, supporting gains in quality scores and performance-based reimbursements.

Data Science Instructor **Jul 2025 – Dec 2025**

IT Sharks | *Egypt* | *Part-time*

- **Curriculum Development:** Designed hands-on curriculum with real-world projects and case studies that bridge theory and industry practice.
- **Teaching:** Taught data preprocessing, exploratory data analysis, predictive modeling, and data visualization using industry-standard tools.
- **Mentoring:** Provided personalized feedback and career guidance to help learners transition into data roles.

Data Analyst **May 2023 – Feb 2024**

Key2Soft | *Egypt* | *Part-time*

- **Real-Time Dashboards:** Built dynamic dashboards in Power BI, Tableau, and Grafana connected to live data sources, giving operations teams continuous monitoring of key business metrics.
- **Financial & Risk Analytics:** Analyzed market and transaction data to support risk assessment and trend identification for business stakeholders.
- **Customer Analytics:** Created customer segmentation and behavioral analyses from clickstream and event data to support personalization and conversion improvements.
- **Monitoring & Alerting:** Developed automated KPI monitoring and threshold alerts across business units, enabling faster response to issues.
- **Anomaly Detection:** Built anomaly-detection models to flag suspicious transactions and reduce false positives in fraud review.

Data Scientist **Sep 2022 – Jul 2023**

GOBA | *Egypt* | *Full-time* | *Self-employed startup*

- **AI Model Development:** Developed and deployed deep learning models (CNNs) for chest-imaging analysis, supporting medical professionals in identifying serious chest conditions.
- **ML Pipelines:** Built end-to-end pipelines for data preparation, model training, validation, and deployment using Python, TensorFlow, and Docker.
- **Recognition:** Won First Place at Techne Drifts (Kafr El-Sheikh) and ranked among the Top 18 startups at Techne Summit Cairo 2023.

Data Scientist **Oct 2022 – May 2023**

Mafhoum | *Alexandria* | *Part-time*

- **Cross-Functional AI Solutions:** Worked with product, engineering, and business teams to identify AI opportunities and translate business requirements into practical ML solutions.
- **Automation & Process Improvement:** Developed ML-based automation and analytics that streamlined internal workflows and reduced manual effort.

PROJECTS

GOBA – AI Chest-Imaging Diagnosis Platform (Graduation Project) YouTube | GitHub

- A platform that uses AI to identify serious chest conditions from medical imaging, supporting doctors in their diagnostic process.
- First Place at Techne Drifts, Kafr El-Sheikh (top startup); Top 18 Startups at Techne Summit, Cairo 2023.
- Participated in the “El-Forsa” program, progressing from 1,117 to the top 50 companies.

Automated Part-Time Doctor Module

- Designed and implemented an end-to-end module for managing part-time physicians' contracts, scheduling, and performance tracking, streamlining workflows across multiple branches.

SKILLS

Programming: Python, SQL, R

Generative AI: LLMs, RAG, AI Agents, LangChain, LangGraph, Prompt Engineering

AI Automation: n8n, workflow automation, agentic AI systems

Machine Learning: Supervised, Unsupervised & Semi-Supervised Learning, scikit-learn, Time Series Analysis

Deep Learning: TensorFlow, PyTorch, Keras; Feedforward, CNN, RNN, LSTM, Transformers

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, Excel, Data Storytelling

Data Engineering: ETL pipelines, Apache Airflow, Apache Spark, dbt

MLOps & Tools: Docker, Git & GitHub, Cloud platforms, model deployment

Math & Statistics: Statistics, Probability, Linear Algebra, Calculus, Numerical Optimization

Web Scraping: BeautifulSoup, Selenium

Leadership & Soft Skills: Team Leadership, Curriculum Design, Public Speaking, Mentoring, Critical Thinking, Problem Solving

CERTIFICATES

- IBM Data Analysis – Certificate
- Machine Learning – Stanford University – Certificate
- Python – University of Michigan – Certificate
- Foundations: Data, Data, Everywhere – Google – Certificate
- SQL for Data Science – Certificate
- Critical Thinking – Nile University – Certificate
- Qualification – Collegiate Programming Contest – Certificate

LANGUAGES

Arabic: Native **English:** Efficient in Work
